Subject: Initial Review of Notice of Intention to Commence Large Mining Operations,  
West Valley Sand & Gravel, Inc., Daniels Canyon Pit, M/051/008, Task ID# 1357,  
Wasatch County, Utah

Dear Ms. White:

We are currently working on the review and response to our initial draft Notice of Intention to Commence Large Mining Operations for the Daniels Pit, located in Wasatch County, Utah. As you are aware there are several items addressed for correction, completion and/or verification before tentative approval may be granted. We have found that the "Phase Work" as initially proposed has changed dramatically due to the material actually feasible for mining and sale as construction materials. Due to this change, a new MINING PLAN is being formulated, with which we are working with JBR & Associates to complete this project.

At this time, we would respectfully request an additional sixty days to address, correct and comply with the items you listed in your original letter.

If you have any questions in regard to this request, please contact me at 602.618.2904 or Kelly Lloyd at 602.618.2900 or any of our office staff at 435.657.2567. Thank you for your consideration in this matter.

Sincerely,

Korey Bethers  
West Valley Sand & Gravel, Inc.
